## INDUSTRIAL INTERNSHIP

## WEEKLY PERFORMANCE REPORT (WPR)

Student Name : <u>Aravind G</u>
Head-Coordinator Name : Shailza Bansal
Organization: Cureya
Hours Worked: Monday 5 HRS
, Tuesday <u>4</u>
HRS
Wednesday 3.5 HRS , Thursday, Thursday, 5 HRS, Friday 4 HRS, Saturday
<u>5 HRS</u> , Friday <u>4 HRS</u> , Saturday
TO BE CONTINUED .
On day 8 Started learning Machine learning fundamentals with diagrams and graphs with various algorithms and models. Also learned some models in R programming. I learned algorithms, models, regression with detailed explanation with graphs and diagrams.  On day 9 I was taught about machine learning with python. It was included with plenty of machine learning algorithms and it has been taught with live demo in python. It contained numerous content related to machine learning. On day 10 I was was watching a webinar and got to know a detailed preview of Google Cloud Platform's data processing and machine learning capabilities. Also attempted the machine learning quiz.  On day 11 I was working on the tasks given for the week 2 on the modules
matplotlib, seaborn, pandas, numpy which are very much useful in datascience.
On day 12 I was further working on my task given for the week. I was learning and implementing the knowledge in my week task and got it cross verified and uploaded in linked in.
